

VAIL WATER 2019

CONSUMER CONFIDENCE REPORT REVISION

Dear Water Customer,

The following information was added to Vail Water Company's Consumer Confidence Report. For the full revised report please go on to our website at vailwater.com, click on reports, and click on download 2019 Consumer Confidence Report. If you have any questions, please contact Manny Oros at 520-647-3679.

Unregulated Contaminant Monitoring Rule addition

Contaminant	Detected (Y/N)	Average	Range of All samples (Low-High)	MRL	Likely Source of Contaminant
HAA5 (ppb)	Y	NA	2.3-3.5	NA	Disinfection by Product
HAA6Br (ppb)	Y	NA	2.71-3.58	NA	Disinfection by Product
HAA9 (ppb)	Y	NA	3.26-4.26	NA	Disinfection by Product

The following information was added to Tucson Water's water quality report. The detect range for gross alpha (<0.2-1.3 pC/L) and the 90th percentile of copper in the Tucson Water's water quality report has also been updated.

Contaminant	Detected (Y/N)	Highest Level Detected	MCL	MCLG	Likely Source of Contaminant
Pentachlorophenol (ppb)	Y	0.12	1	0	Discharge from wood preserving factories

Vail Water is a consecutive connection source through Tucson Water. The revised report will be added to our website once we have received the report. You can go to our website at vailwater.com, click on reports, and click on download 2019 Consumer Confidence Report.
